DUEL TAKES PLACE IN BISBEE ALLEY

Negro Suspended from the School—Ghost Scare By Bird—Prohibition Fight.

Bisbee, Ariz., Jan. 11.—A regular duel, without seconds, fought by two men in the rear of the Copper Queen store attracted the attention of many people Saturday night. The two were armed with long knives and were jumping at each other according to the rules of their own chivalry, when deputy sheriff Norton and constable McRea ended the fight by bringing the couple to the jail.

The board of education of the local school has suspended Eugene Wright, the negro boy who was recently arrested on a charge of criminal assault and who figured in a kidnapping case a few weeks ago.

The fact that Bisbee is considered one of the best places in the territory for labor is attracting a considerable number of people who come here with the idea that they are going to get a position as soon as they arrive. Though the mines around here employ a great many men, they cannot give work to all the newcomers and at present there is a surplus of labor quite alarming.

Excitement was caused last night in School Hill district when Mr. and Mrs. R. O. Jones ran out of their premises asking help from their neighbors against some strange noises heard in their house. A "noise" entered the "haunted" house and directed themselves to Jones' kitchen, where it was found that a small bird, which unfortunately could not find its way out of the chimney.

A few minutes delay in treating some cases of croup, even the length of time it takes to go for a doctor often proves dangerous. The safest way is to keep Chamberlain's Cough Remedy in the house, and at the first indication of croup give the child a dose. Pleasant to take and always cures. Sold by all druggists.

ney, was the cause of the terror. The political strife for the prohibition is increasing in intensity every day. The saloon keepers and their adherents are making great efforts to defeat the "dry." These latter while fighting to their best ability say that a temporary defeat would not mean much. They are satisfied that the idea of prohibition is gaining ground every day and it will soon have the approbation of the majority of the people in this territory.

TEXANS PLOWING BY STEAM BOTH DAY AND NIGHT.

Dalhart, Texas, Jan. 11.—R. J. Terwilliger is preparing to put in 3000 acres in broom corn, having recently received a gasoline portable engine and plow. The outfit furnishes its own electric light, and when once started up the plow will be run day and night until the whole 3000 acres is seeded. Mr. Terwilliger calculates to seed from 50 to 60 acres every 24 hours, and in the event of an average crop it will require more than 200 men to harvest it.

MONTEREY'S MAYOR TO REVOKE LIQUOR LICENSES.

Monterey, Mex., Jan. 11.—Mayor Zambrano is said to be contemplating the removal of liquor license to the small tandajos and corner stores throughout the city. This will be one of the most important legislative moves ever made in Monterey.

Measures are being taken for the betterment of Monterey's city lighting.

WORK CONTINUES AT PATAGONIA

San Antonio-Arizona Company Strikes Some Rich Ore in Claims.

Patagonia, Ariz., Jan. 11.—The San Antonio-Arizona Mining company, of which Wm. Kemp of Tucson is president; T. E. Mumme of San Antonio, Texas, vice president; E. E. Bethell, treasurer and general manager, and F. E. Bethell, of Patagonia, secretary, is doing extensive work on its group of 16 claims.

One shaft is now down 50 feet and shows a vein of lead and zinc ore two and a half feet wide, averaging 15 ounces silver and 10 percent lead. This vein at the surface is 30 feet wide and shows outcroppings for a distance of three miles. There are several veins running parallel with this vein, and a shaft of 30 feet deep sunk on one of these parallel veins has uncovered an ore body three feet wide, carrying copper, silver and lead, the last named running as high as 66 percent.

A little to the south of this the company has sunk another shaft 110 feet and drifted westward 35 feet uncovering an ore body three feet wide, showing rich in native silver and copper. Assays taken from this show 186 ounces in silver and 15 percent copper. There is a 10 foot sump showing the same kind of ore as in the drift.

Two hundred and eighty-five feet west of the main workings is a shaft 60 feet deep and at the 40 foot level a drift of 18 feet has uncovered another body of high grade ore, and strata of this ore run down the main shaft. Every discovery hole in this property shows ore of a diatite and porphyry formation. Development work will be continued and contracts to that end are now being let.

The Jennie shaft of the Eureka group of the Cordova property has been sunk 125 feet by hand drilling and hoisting. At this depth operations have been temporarily suspended on account of the inefficiency of the windlass for hoisting the rock and water. The shaft is in granite-porphry.

The crosscut eastward on the 475 foot level of the Sullivan shaft is being given a northeasterly trend at the present distance of 340 feet from the shaft, and will explore the north part of the Eureka claim. A churn drill began prospecting this property Monday.

Warrior Development.

The mining operations at the Warrior mines continue to produce about 75 tons of chrysocolla ore from the second and third levels for shipment to the El Paso smelter. The average copper content remains at about 10 percent, but exploratory work has opened 11 percent copper ore on the 300 foot level.

One of the two churn drills that have been ordered by the Warrior has arrived and was put into operation recently. The results of the advance underground development work on this property continue to be favorable.

ASBESTOS DEPOSIT IS FOUND NEAR YUMA

Yuma county, Ariz., has for years been known to be rich in gold and other minerals. Recently H. B. Fish, a prospector and resident of Yuma, found a bed of asbestos in a locality called Yuma Wash, which lies about half way between Yuma and Ehrenburg, about 30 miles up the river from Yuma.

The deposit of asbestos is said to be of immense size. The discoverer has crosstout it on the surface 34 feet and has not found the side walls. It is said that its value is from \$200 to \$400 per ton.

F. J. Fish, chief of police of Vincennes, Ind., and W. A. Harbison of Chicago, passed through El Paso recently to visit the property, in which they are interested.

GOOD ORE FOUND IN DEVELOPMENT

Properties in the Globe, Arizona, District Are All Active.

Globe, Ariz., Jan. 11.—Hoval A. Smith, in speaking of the Cordova, Live Oak and Warrior properties recently, said that the development work for this year will prove beyond a question of doubt the extensive ore bodies contained in these properties. The management,

TULAROSA NEWS NOTES.

Dr. Callaway has returned to Mesalero, after a month's vacation in Oklahoma.

Mr. and Mrs. Ennis Hilburn have returned to the Hondo, after a brief visit with Mrs. Hilburn's father, G. W. Davenport.

J. W. Prude and son, Andrew, made a short trip to Mesalero recently.

Matt Gilmore has returned to Alto, after a short visit with his brother, West Gilmore.

ARTESIA METHODIST COLLEGE OPEN; LIGHT PLANT SOLD.

Artesia, N. M., Jan. 11.—Artesia is now a real college seat. The Western roots of the Lower-Looney company, of the Methodist church in the southwest, is now open.

The school has been receiving students since the first of September, but many improvements have been made since that time, and the parts which were then unfinished have been completed.

A deal is on foot whereby the ownership of the electric light plant is to be transferred to Gayle Talbot and J. W. Lowery, in exchange for the stock of goods of the Lower-Looney company. This will mean the strengthening of the light plant and the establishing of a new clothing firm. The deal is practically closed, although ownership has not been transferred or possession given.

Joyce-Fruits will put in an undertaking department under the direction of Frank H. Snell.

The Christians are holding a revival conducted by evangelist R. A. Hayden. A number of conversions are reported.

In a football game between Artesia and Lake Arthur, at Athletic park, Artesia had his leg broken during a tackle.

POSTOFFICE ROBBED.

Dalhart, Texas, Jan. 11.—Thieves had easy access to the postoffice safe at Dalhart, it having been left unlocked by the office force. One hundred and twenty dollars were taken, with a quantity of stamps. Suspicion points to two persons having committed the burglary.

EL PASOANS SELL NEW MEXICO MINE

Calumet & Arizona To Have Largest Hoist in the District.

Courtland, Ariz., Jan. 11.—A new galley frame for the Germania shaft of the Calumet & Arizona is ready to raise which will be the largest one in the district. The foundation for the double-drum hoist is ready to receive the big machine upon its arrival.

Four of the working shafts of three of the companies have been connected up, and it is now possible to go underground from the Brown shaft of the Copper Queen through the Mary mine of the Great Western, to the Germania and April Fool shafts of the Calumet & Arizona.

The force of miners at the Gold Queen property has been increased, and a tunnel started to tap the shaft at the 100-foot level, which will be used to take out the ore. This tunnel will be completed by the time the mill of the Commonwealth company at Pearce is ready to treat the ore. James Sutherland has been appointed superintendent and is making a splendid showing at this promising gold mine. Material has been ordered for ore bins, which will be constructed as soon as it arrives.

MINING DEVELOPMENT.

Bisbee, Ariz., Jan. 11.—The Warrior Development company is going to start work on its property with two star chum drills, one of which will be put in place Wednesday. The other will be put at work on the Cordova property as soon as it arrives. This company has been sending about 75 tons of ore daily to El Paso for smelting. The ore carries about 10 percent copper.

USEFULNESS OF CREDIT ASSOCIATION TO BE EXTENDED TO OTHER TOWNS

El Paso Merchants to Give Surrounding Communities Benefit of Their Rating Books.

Perfect protection for the El Paso merchants who are members, is what the Business Men's Protective association is working for. At the meeting at the association's office in the City National bank building Monday evening to hear the report of the affairs of the association for the past month, it was decided to extend the operations of the association to the towns surrounding El Paso as far as the El Paso trade is concerned, in order to offer better protection to the local merchants and their accounts.

The report of the business agent, J. G. Ingels, which was read by secretary H. Y. Ellis, showed that during the past month 357 applications for reports on prospective creditors had been made to the association. This is an increase over any previous month in the history of the association and shows the use that the merchant members are making of the association to spend the balance of the winter. Mr. Howard recently owned the Kirkville Express, of which he was editor, but he sold out.

Miss Minnie Thompson, of 1115 Wyoming street, is at Providence hospital, following an operation.

HELD TO GRAND JURY.

John Murphy, who was arrested by the city detective as a suspicious character and later turned over to the federal authorities on suspicion of having been implicated in an opium smuggling affair, was bound over to await the action of the federal grand jury, yesterday afternoon, by United States commissioner George Oliver. Murphy waived preliminary hearing and his bond was fixed at \$200.

C. C. Howard, wife and baby, of Kirkville, Mo., are in the city, guests of Dr. Ira W. Collins, on their way to California to spend the balance of the winter. Mr. Howard recently owned the Kirkville Express, of which he was editor, but he sold out.

Miss Minnie Thompson, of 1115 Wyoming street, is at Providence hospital, following an operation.
